

CEO MESSAGE:

It is a matter of pride and blessing for me to be in the right place at right time for the growth, success and prosperity of NESCON that serves our community and is working for the development of Infrastructure and industrial development. Our aim is to provide solutions to our valued customers that are cost effective, efficient and environmental friendly.

Our team of sincere, motivated and dedicated employees; will keep us focused on our main goals i.e. honesty, cost efficiency and client satisfaction.

I would like to thank our clients and partners for the trust they have put on us. We are in continuous improvement with a team of enthusiastic individuals for the satisfaction of our valuable clients and partners within NESCON.

Dr. Engr. Khalid Mahmood

Chief Executive Officer

NESCON

MANAGING DIRECTOR MESSAGE

Lastly, I would like to express my sincere gratitude to all the stakeholders, our team and clients for their. It is a matter of pride for me to be one of the pioneer and Managing Director of National Engineering Solutions and Consultants, (NESCON). Our firm provides consultancy services in diverse fields of Civil Engineering with the help of a professionals and specialized team. The continuous efforts and commitment of our team has provided NESCON a prominent position among Engineering Consultants in a very short period of time. Together with our National and International partners, we are continuously looking forward to meet new challenges in the diverse field of Civil Engineering.

ENGR. MUDASSAR NAWAZ KHAN (P.E)

Managing Director

NESCON

INTRODUCTION

National Engineering Solutions & Consultants (NESCON) is an engineering consultant firm located in Peshawar, KPK and has sub offices in other parts of the country. The firm offer broad range of consulting services for construction, energy and development industry which are tailored to meet the needs of clients on an individual basis. With the help of highly qualified Professional Engineers and support staff; NESCON provide the level of expertise which is required to accomplish any challenging project in construction, energy and development sector.

NESCON has a multi-dimensional approach towards its areas of services and expertise and contributes significantly in strengthening engineering field in Pakistan. NESCON is providing engineering services in the projects that include but not limited to the design and planning of infrastructures, geotechnical investigations, feasibility studies, civil engineering surveys, irrigation systems, project management and supervision, rehabilitation of infrastructures and renewable energy, etc. The firm is constantly adapting professional high-quality skills to meet individual client needs and the opportunities of the marketplace.

VISION

Our vision is to be leading consultant firm in construction industry and becomes the first-choice people go for building things that matters.

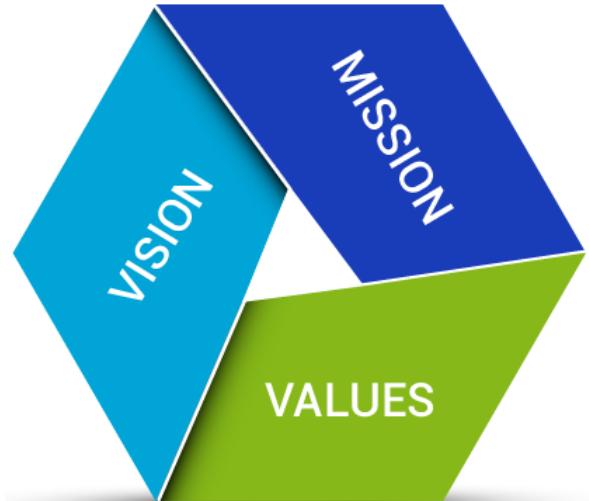

MISSION

Our mission is to provide consultancy services to our clients which exceed their expectations. We will accomplish this with the help of highly qualified professional staff, and with honesty and integrity.

CORE VALUES:

We understand our responsibilities and roles as engineering solution provider, partner, employer, and in our relationship with clients. We at NESCON believe that constantly struggling for following set of core values will increase our reputation as professional consultants, long term profitability, and our ability to provide engineering solutions to our clients. We value:

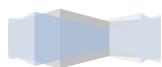

- Our Client's needs and their expectations
- Our Employees and their potential for continuous development
- Hard work and professionalism
- Teamwork and performance
- Integrity and respect
- Accountability

COMMITMENT

NESCON is committed to enter into valuable working relationship with each CLIENT by listening and addressing their unique requirements of the project; and delivering the results which meet their expectations. We understand that best relationship is achieved through communication and commitment to our CLIENTS during each step of the project. We approach

all of our projects by understanding the project, sound methodology and finally delivering the results which meets our CLIENT's highest expectations.

PROJECT MANAGEMENT:

A project assigned to NESCON becomes the responsibility of a Managing Director for all phase of the project, he may either assume the responsibility of a project manager or appoint some other senior staff member as the project manager directly responsible to him, the project manager NESCON use a large range of specialty groups in NESCON & coordinates with various agencies involved to ensure timely flow of information and decisions necessary for the satisfactory completion of the assigned tasks.

QUALITY ASSURANCE

In order to ensure that the assigned tasks for each project are completed to the satisfaction of the client and in accordance with internationally accepted practices a comprehensive quality assurance program is followed,

Each specialty division is responsible for the quality control of the work being produced by it. This quality control is achieved by means of standardization of work procedures and performance of internal reviews. In case any particular problem requires an in-depth study the project manager may call for a review by senior staff.

Assuring accomplishment of quality standards commensurate with the requirements of the projects. NESCON quality assurance group, consisting of highly experienced and competent engineers reviews all documents, drawings and reports prior to their issuance to the client.

OUR SERVICES

The scope of services offered by the company for preparation of feasibility studies for various types of projects includes detailed analyses to establish technically sound project designs and their economic and financial viability. Economic perspective and the project objectives are defined and technical studies like initial site inspection; field exploration of the project area including geological and hydrological surveys; traffic assessment surveys and related data analysis; soils, foundations and constructions materials investigation and testing; preliminary design; comparison of alternative; determination of comparative costs are carried out. For selected projects designs, the economic and financial costs are compiled and compared with expected economic benefits. By considering economic benefits and economic costs, the economic viability is appraised. All these technical and economic studies are described in the project feasibility reports, submitted to the clients as the basic material for use by them to obtain project approval of the financing agencies concerned.

NESCON services are broadly categorized as:

- ❖ Urban Planning / Master Planning
- ❖ Highways
- ❖ Geotechnical Investigation
- ❖ Design of Structures
- ❖ Waste Water
- ❖ Project Scheduling & Management
- ❖ Construction Supervision& Management
- ❖ Contract Management
- ❖ Survey and Mapping
- ❖ Irrigation / Energy and Development
- ❖ In-Situ and laboratory tests
- ❖ Analysis and design of slopes
- ❖ Design of Earth Retaining Structures
- ❖ Analysis and design of foundations
- ❖ Soil surveys and subsoil explorations
- ❖ Geotechnical reports
- ❖ Ground Improvement Techniques
